01 Profile

Software engineer with 5+ years building software for Toyota Motor Europe, Inditex and Mercadona. I turn what a business needs into products that work: I help design the solution, build it with the team and own it in production. I bring AI into how we build, where it makes us faster without lowering the bar.

02 Experience

- Toyota Motor Europe

Nov 2024 — Present

Software Engineer · via Xplore Group · Valencia

 - Own and evolve high-traffic APIs serving 2M+ requests a day across the product and dealer domains of Toyota’s European operations.
 - Drive the technical design of cross-domain features and lead the integration work with adjacent teams.
 - Modernise legacy services while keeping them fully operational for the teams that depend on them.
 - Build with AI-driven development, safely: comparing equivalent features, we deliver 3-4× faster and at about a quarter of the cost of purely manual development.
- Inditex

Dec 2023 — Nov 2024

Software Engineer · via Plexus Tech · Valencia

 - Built on a Kafka-based data aggregation platform that unified how data is exposed to downstream domains.
 - Shaped the consumer-facing data contracts used across the organisation.
 - Ran production backend services with a steady release cadence and on-call ownership.
- Mercadona

Mar 2022 — Dec 2023

Software Engineer · Logistics & Supply Chain · Valencia

 - Designed and shipped a Kafka-based data unification layer used across logistics services.
 - Led a warehouse migration with strict consistency requirements and a minimal-downtime cutover.
 - Built an inter-warehouse transfer solution coordinating several operational systems.
 - Delivered a document-signing flow on cloud storage that replaced paper workflows and met legal compliance.
- Capgemini · Software Engineer

Jan 2021 — Mar 2022

Backend development for Consum, in food retail.
- Infoverity · Software Engineer

Mar 2020 — Nov 2020

Data governance and internal tools.
- F1-Connecting · Systems Technician

Feb 2019 — Sep 2019

HelpDesk handling 8,000+ incidents a month.
